We build a better future

The New AC Control B Series

Designed with a durable frame and built to offer excellent stability and a smooth ride. The newly designed AC control forklifts are built to be real workhorses.

■ Some of the photos may include optional equipment.

High Technology ZAPI Controller Eliminate "almost noiseless"

The efficient, 8Khz (high frequency) ZAPI controller provides smooth operation and protection for low & high voltage, overheating and fault recording.

- Features**
- Regeneration : Direction change, Deceleration, Braking
 - The new AC motors offers a of 10% greater efficiency than traditional DC motors
 - Various performance models are available to maximize efficiency and equipped to work in all types of operations
 - Enhanced Efficiency
 - H (High) Mode, N (Normal) Mode, E (Economic) Mode
 - Turtle Mode : 10km/h

Superior Power with Optimal Performance

Efficient, smooth driving, ergonomically designed, AC control B series are built to meet your needs.

Increased Mast tilting Angle

Utilizing the mast tilting angle of 5 degrees forward and 7 degrees backward, the operator can rapidly perform hydraulic functions.

Wet Disc Brake System

The wet disc brake system is virtually maintenance free and is enclosed to protect from dust and water.

Fully Hydrostatic Power Steering

A hydraulic steering system ensures smooth & precise steering which prevents kick-back.

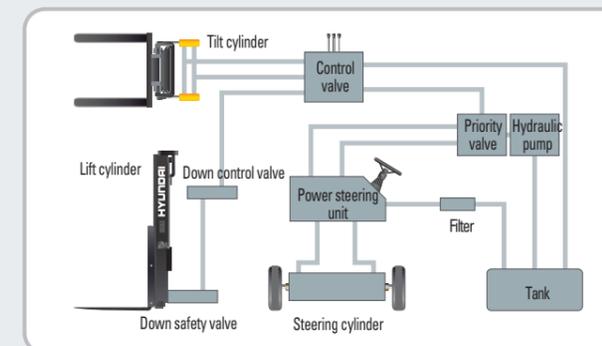

OPSS (Operator Presence Sensing System)

Control of mast tilting, lifting and lowering is not possible through operation of the appropriate control when the operator is not in the seat

Fork Safety Features

When the forks are being lowered, a down-control valve maintains the controlled speed. The down-safety valve prevents forks from dropping down in case of sudden damage to the hydraulic lines.

State-of-the-art hydraulic System

The latest large-capacity hydraulic system reacts quickly during operation, and a low noise control valve increases both efficiency and durability.

4-Wheel Center Pivot

The newly designed 4-wheel center pivot allows the forklift to navigate with an extremely small turning radius compared to other forklifts.

Anti-Rollback System, Faster Travel Speed & Gradeability

ZAPI's anti-rollback system provides safe ramp operation plus exceptional ramp start capabilities.

The powerful high-output motors provide greater acceleration, better gradeability and faster travel speed on any tough terrain or slope.

Travel Speed (MAX)

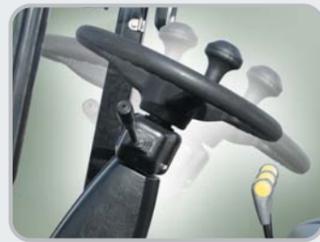

Model	km/h
16B-7	17
18B-7	17
20B-7	17

Gradeability (MAX)

Model	%
16B-7	16.4
18B-7	15.3
20B-7	13.7

Comfortable Operation

A design based on human engineering relieves fatigue and increases operator's efficiency.

Adjustable Steering Wheel

Steering wheel can be adjusted by a lever on the right-hand side for the most comfortable operator position.

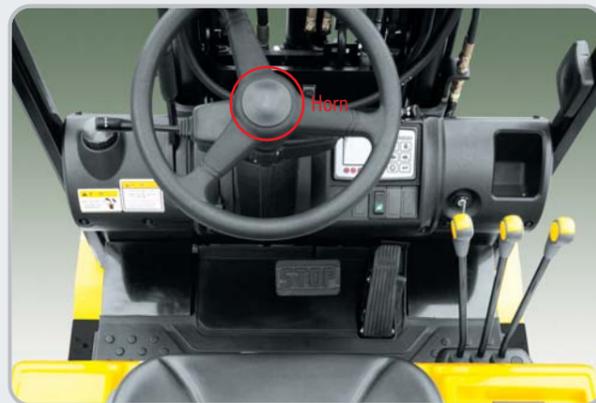

High visibility for safe operation

The operator is able to work with increased safety and accuracy.

Easy Control Direction Lever

Finger tip control of forward and reverse lever allows the operator to control the equipment with minimal effort.

Perfect Fit For Long Work Cycles

An ergonomically designed operator's compartment enables the driver to select the most comfortable working position for increased productivity.

Multi-Functional Switch

Integrated multi-functional switch lever enables the driver to operate lights that includes a secondary horn position.

The Ergonomic Pedal Position & Non-slip Mat

Based on human engineering, the accelerator and brake pedals are optimally positioned for convenience while operating the equipment.

Prompt Response of Operating Control Levers

Only minimal operator's effort is required for precise, safe and productive control.

Easily Adjustable, Full Suspension Seat

An attractive and adjustable seat, based on a human engineering design, provides greater comfort, safety and durability.

* Options : Seat belt, Arm rest, Hip restraint

AC Control System Features

- _ Excellent Control Ability
 - Various performance modes to meet all working conditions
 - Slow rolling on ramp & ramp start
- _ Enhanced motor efficiency & Excellent regeneration

■ Some of the photos may include optional equipment.

Self - diagnostic LCD Monitor

The LCD monitor has a back-light system to provide a clear view of the system's operation in all environments. The monitor provides information about operation error, system fault, battery level, hour meter and selected performance mode. Other various functions include items such as self diagnostics and password activation. These features are can be accessed without the need of a laptop or handset.

Keyboard Buttons / Performance mode

Operator can select performance mode easily according to working condition.

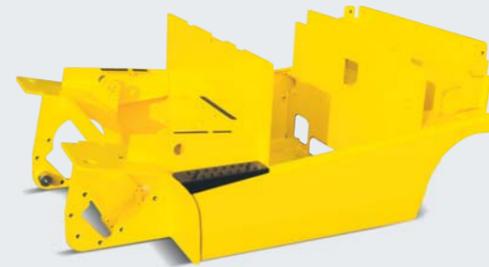

Console Box & Cup Holder

Additional storage spaces are available on the right side for operator convenience.

High Durability & Simple Arrangement

An ideal arrangement of component parts ensures easy access and convenience for maintenance.

Heavy Duty Single Frame

Heavy duty single type frame, designed on the basis of accurate structural analysis, guarantees durability and safety.

■ Some of the photos may include optional equipment.

Strong Overhead Guard

The safety overhead guard meets EEC and ANSI regulations and protects the operator during hazardous work.

Parking Brake

Ratchet type parking brake requires less effort from the operator to set.

Hand Grip & Large Footboard

Wide "open" step and large hand grip offer convenience and safety when entering and exiting the truck.

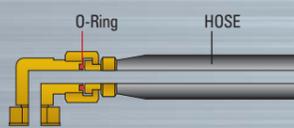

Rear Safety Lamp

Rear combination lamps with turn signal lamps, tail lamp and brake lights are positioned for high visibility to ensure safety.

Battery Locking System

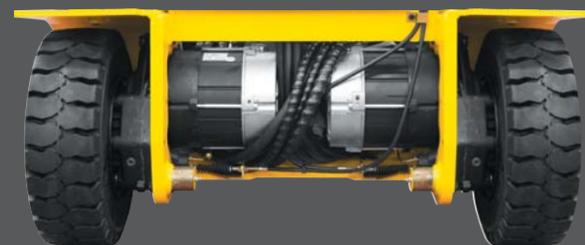

ORFS (O-Ring Face Seal)

ORFS type hose prevents the leaking of hydraulic oil.

High quality AC motors

Enclosed motors prolong durability. No brush and no commutator. (No arc and no spark)

Easy Maintenance & Serviceability

Easy battery replacement

Battery change is easy with swing-up compartment and slotted overhead guard. Opening and closing of battery cover is made effortless with a gas-spring assist cylinder.

A concentrated fuse box for easy inspection

Oil Tank Port

Steering Sensor

Pump motor

Battery Disconnect Lever

Easy to Check Brake Oil Level

High Visibility Headlights & Rear Work Light

DC-DC Converter

DC-DC converter exceeds UL & CE requirements to prevent short circuit, overload and reverse polarity
